

## Category: New Build

This award recognises exceptional design, delivery, or performance in the creation of new buildings. It rewards projects that demonstrate best practice, provide user satisfaction and the use of innovative materials and techniques to deliver outstanding buildings.

The headings below reflect the judging criteria, and you will need to provide the relevant information and evidence under each heading.

### ENTRANT DETAILS

Full name

Job title

Organisation name (as you wish the organisation to be referred to throughout)

Email

Phone

Project Name (as you wish for this to be referred to throughout)

Project Completion Date

Project Address

## ENTRY CRITERIA

### 1. Project Description

Please explain the project or initiative, including its objectives and the aspects of building engineering that it sets out to address. *(maximum 250 words)*

### 2. Quality

Outline why your nominated project is of an exceptional quality to merit an award. This could include the quality of the project's design or performance, quality of construction work, innovative or improved site practices, exceptional management practice including project and cost management, or the use of particular skills or techniques. *(maximum 800 words)*

### 3. Equality, Diversity and Inclusivity (EDI)

Set out how the project has considered EDI to deliver an environment that meets the needs of a range of users. This could include adaptations for accessibility, apprenticeship or training opportunities, or the social impact of the build. *(maximum 300 words)*

**4. Client/user satisfaction**

Provide examples of how the client/public users of the project benefit in terms of the overall satisfaction and demonstrate how the needs and expectations of the project at inception have been realised. *(maximum 300 words)*

**5. Sustainability**

Please outline materials and technologies that have been used to ensure the sustainability of the project. *(maximum 300 words)*

**6. Innovation**

Outline the innovative practices, technologies, and/or materials that were used to meet the objectives of the project. This could include the use of digital technologies, new materials, or research. *(maximum 300 words)*

## SUPPORTING DOCUMENTS

As well as the information you have provided, we encourage you to supply additional examples of evidence to support your entry narrative. Please select the forms of evidence that you will be uploading alongside your submission.
